INTRO

It has been debatable when it comes to discussing the mysterious attraction which skulls have imposed on people and when the insignia really made its entrance into the visual world. Some would point out to the early Christian era and for someone whose was from the later generations would just accepted its existence in myriad of surfaces like on the label of a bottled poison, flags on pirate ships, emblazoned motorcycle gangs' leather jackets or even backdrop of a rock-themed bands of musician. However, the skulls would often be accompanied by crossing bones either right at the back of the skull or underneath it. Nevertheless, it serves the same purpose; to alert people of its dangerous status which is worthy of precautions when dealing with it.

Depends on how you look at it, skull as it is just one of the remnants of death or existence. While being in the stationary state of what used to be a dynamic living being, skull which is the top part of any creature's sets of bones unanimously headed the significant of a being. The head is universally known and treated as the entry point of recognition and interaction from one being to another. Hence, solidify the importance of skull over the rest of the bones.

ROMANTICIZING DEATH

Not to be confused with Halloween celebration, '*Día de los Muertos*' or more commonly known as 'Day of the dead' is a celebration relatively practiced by Mexican which they would give praise and serve remembrance to the deceased family member. Most of them would make decorations that resembles the dead primarily bones and skulls. Some would also donned painted face of skull in the spirit of the celebration. It is not entirely true when people would exclusively associate it with mourn and grieving. If anything, that seemingly sad energy resembles love rather than longing for the passing of the dead.

"To be or not to be, that is the question."

- Prince Hamlet

One who is accustomed to that phrase of famous play would never, not picture a man, reciting the aforementioned soliloquy having his five fingertips, grasping a skull locking eyes to eyes (socket). Considering the suicidal thoughts the character Hamlet had, one could argue that the pain that was going through the unfairness of life is worth savoring hence the contemplation death. Speaking in context with the subject, skull is indeed a reminder of death that one would never shy of acknowledging despite every danger that death might impose; which is to be never again live. Be that as it may, suicidal thoughts if they were to be materialized are likely a death sentence rather than just sending love letters to death himself.

SKULL AS A BEAUTIFUL SUBJECT

Another example of skull related art can be seen through the work *'For the Love of God'* by Damien Hirst, a titanium skull encrusted with thousands of diamond which believed costed roughly around 15 Million Pound Sterling for the artwork to be made. Damien Hirst and his thought process has always been known to be dealing death and ironically speaking how people would find it beauty rather than to endlessly question its inevitability by striving for immortality.

Although the late Alexander McQueen was known more as a fashion maestro than a fine artist, the garment pieces that he has created in the past alongside the astonishingly display of his work has always been the backbone to his process which puts forward his duality in becoming the artist and the curator himself. Example can be seen through McQueen used skull as his subject in his pattern work which drew inspiration from Jack the Ripper. The theatrics element which involved in his offering can be seen of a same stature of witnessing how Tim Burton does his wonder with movies. One of Tim Burton's famous creations, 'Jack Skellington' is one of the characters in his animation movie titled *'The Night before Christmas'*. Despite bearing of the same par as Santa Claus and the Easter Bunny, he is not less of a patron spirit as the two others. Halloween would be his holiday with the responsibility to scare children away in a hope to keeping the spirit of the holiday alive. Despite all that, he is gentlemen which pretty much telling.

All in all, Tim Burton is not necessarily the equivalent of Alexander McQueen in regards to their respective art and craftsmanship but both arts do revolves around the idea of evoking the beauty side of macabre and horror.

CONCLUSION

A skull themed art exhibition would be too easy if it was only to become a collection of death-centric or death-driven artworks. It is not much of a surprise that one would have the same mental image when it comes to the subject. After all, it is a matter of how and why than what. There is Malay saying that goes *"Harimau mati meninggalkan belang, manusia mati meninggalkan nama."* which means that every single being would sometime die and leave behind a significant as a mark to its existence. Therefore, bones and especially skull is reminder to what used to be a whole of someone. Here lies so and so as we gathered here today, dearly beloved. Aside from skull what's left or a being, it is without a doubt, quintessential of a man.

G13 gallery has organized a group exhibition for the month of April which centralized around a popular subject matter, skull. Fourteen artists has been handpicked and invited to participate in the exhibition. Most of them has not been using skull as their primary subject matter per se but it is rather interesting to find out which narration and interpretation one might take from the other. That is of course supplemented by respective train of thoughts, creative process and the final outcome.

Participating artists: *Aiman Zamri, Al-Khuzairie Ali, Arikwibowo Amril, Eddie Hara, Edroger Rosili, Faizal Suhif, Khairudin Zainudin, Gan Tee Sheng, Hisyamuddin Abdullah, Ruzzeki Harris, Shafiq Nordin, Shahrul Jamili Maskon, Syahbandi Samat and Winner Jumalon*
